

Meeting Notes –

Hi All,

This evening, Kwok and I discussed the current status.

We feel that it is better to wait for Nkosana to upload his data, we all then review the whole document separately, and discuss it again as a group.

For this reason, I have scheduled a call for Wednesday evening @ 2100h CET (invitation below).

If we are all able to review the document, we should be able to make suggestions/alterations etc.

With the call being on Wednesday, if we need to meet again, it gives us time on Thursday or Friday, as I am keen to get this summary sent before the weekend if possible, so that I can focus on the personal reflection stuff.

If you are unable to join the call, no issues, but please send any comments to the group WhatsApp or via email.

Thanks and regards

Rob
