

Re: Peer response

by [Steph Paladini](#) - Thursday, 5 October 2023, 3:20 PM

Hello both

you're absolutely right.

I have elaborated on the ethical pitfalls of statistical analysis in the seminar, but there is more out there that can be reviewed.

All these points are worth consideration when you write down your own project and consider its ethical implications --regardless of the specific methods you adopt.

Best wishes,

Steph
